

DALLAS, TX | SEPTEMBER 21 - 23, 2026

PCS CUSTOMER SUMMIT

MAKE THE CASE TO ATTEND. GET MORE OUT OF YOUR TMS.

The ask: Approval to attend the PCS Customer Summit, September 21–23. Three days. One room. For the first time ever, carriers, shippers, and partners together in one place — plus product updates, hands-on time with PCS experts, and an industry keynote from FreightWaves.

WHY IT'S WORTH IT

Gain new ways to save hours each week, use PCS TMS more effectively, and make better decisions faster — value that pays for itself in weeks, not months.

Time Savings

Run tighter operations and automate workflows through dispatch, billing & reporting.

Networking

Know what's working across other fleets — and what to fix before it costs you.

Stronger ROI on PCS

Walk away with real, usable strategies and learn how other fleets are improving margins.

Direct access to PCS Experts

Solve issues fast, in person, not over email.

WHY THIS YEAR IS DIFFERENT

- **Keynote speaker:** Malcolm Harris, host of What the Truck?!? on FreightWaves.
- **First time ever:** carriers, shippers, and partners from every region, in the same room.
- **Limited add-ons:** golf and hands-on training sessions will sell out.

“Between one-on-one time with PCS and connecting with other companies, the networking alone makes the Summit a must-attend.”

— Mike Harford, Sutton Trucking
